

# Crit Bits

## *Critique Without the Politics*

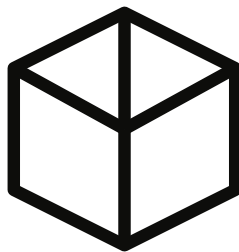

Most teams give feedback. Very few do it well. Feedback gets tangled in hierarchy, personality, and politics until people stop trusting the process. Crit Bits translates the rigorous critique culture of design education for the reality of modern organizations — giving teams a shared framework that holds up under pressure.

Improve

### BENEFITS

#### COMMON GROUND

A shared language for feedback across roles, seniority levels, and disciplines.

#### BETTER REVIEWS

Fewer defensive reactions and reviews that move work forward instead of in circles.

#### LASTING CHANGE

A repeatable format they own — so the shift in culture outlasts the workshop.
